CPD points will be awarded

Organised by

FACULTY OF MEDICINE

Malaysian
Oncological
Society

MALAYSIAN UROLOGICAL
ASSOCIATION

Supported by

MSD

Objectives:

- 1) Understand the pathology and radiology aspects of renal cancers
- 2) Enhance the knowledge of disease management using systemic and local therapies
- 3) Discuss patient management based on evaluation of clinical cases
- 4) Apply multidisciplinary approach to patient management
- 5) Promote interest in genitourinary cancers
- 6) Encourage networking among the urology and oncology team

Target Participants:

- 1) Trainees in oncology
- 2) Trainees in urology
- 3) Young oncologists / urologists with special interest in renal cell carcinoma (RCC)

*Selection of participants is based on case submissions. Suitable cases will be selected for presentation during the workshop.
